My mother was one of the greatest women she was always there for you with a smile on her face. When times were rough she would always tell me you are going to do great things in your life Philip. I would give anything to see her one more time and to just see her relax and enjoy the best times we had together. I love and miss you more than anything and I know you are watching over us everyday. I cannot wait to see you again Mom we love you.
