Thank you daughter for teaching me to laugh, love and be independent. You have shown me how to be strong through tuff times and how to be positive during the times I couldn't. I will miss playing games, playing card and laughing until we cry. Most of all I already and will always miss talking to my best friend, hearing your voice several times times everyday. This was the toughest woman I have ever met in my life and that makes me extremely proud to call her my grandma. She was given a life that most people on this planet couldn't handle. She has battled different forms of cancer most of her life. Looking or talking to her you would never of known that this was her truth. Her and my grandpa gave me and my older brother everything that we ever wanted and then some. We were very blessed to have her with us as long as we did. Rest In Peace grandma, I love you and I will miss you dearly.
