lines in a great number of corporate buildings. This job required Billy to travel throughout the country for years at a time.

Billy was a very competent handyman. He did repairs or maintenance on anything that needed work around the house and at his friends' homes.

Billy had various hobbies. He enjoyed arts and crafts. He had skills and talent making him an exceptional crafty guy. Billy also loved to talk about his sailboat and how he traveled from coast to coast.

His passion was riding his Harley Davidson motorcycles and riding his Girl Bike, which he made himself. These were his pride and joy. Billy would frequently be stopped by police officers, not for any violation, but curiously to take a closer look and inquire about his Girl Bike. Billy left many unforgettable stories.

He was proud of things he built with imagination and his hands. He produced things with the very best results he could, exceeding his own expectations.

Billy's family would like to thank you for being a part of Billy's life that made his life complete.

Helen Christensen posted:

Billy was married to my aunt Wilma Jean Christensen. I met Uncle Billy when I was 14 years old. He taught me a lot about Life and shared his wisdom. He took me on a lot of Harley rides, sailing and much more. Uncle Billy opened his home to family and friends, who ever needed help. He loved his ice cream and his "girls". He shared so much with all of us and created some great memories. We will miss him a lot. Sympathy to his family from Helen Christensen and Sarina
