

## Linda Ann Carson Moore

January 2, 1948 - November 14, 2020

Linda Ann Carson Moore was born on January 2, 1948. She was born to a surviving World War II Iwo Jima Marine and a wonderful loving Mother. She grew up and lived her entire life in the Houston area. The stories told by her revealed a beautiful childhood upbringing. She attended Mount Carmel Academy and taught the Nuns there to have patience as she had a hard time sitting still. A bright student she excelled in studies and it was clear that she was not average by any means. She was never alone as she had two younger brothers who both hold her in high regards to this day. She led the way for them leading by example with one retiring as a high-level CEO of a major Telecommunications Corp. and the other retiring as a USMC Gunnery Sergeant. Linda was twice married. Her first husband (childhood sweetheart) lost his life just 3 months after their marriage in an auto accident. Her second marriage ending in a divorce through no fault of her own. She worked in the airlines as a stewardess. Then as a bookkeeper for a large oil corporation. She found her favorite career as a real estate agent and quickly made her way to the top as the best listing agent in Houston. She could make a deal work and closed many contracts. She did this until her health caught up to her in 1993. Diagnosed at the time with a rare liver disease with no known cure at the time she buried herself deep into studies on the subject. Soon she was online with the computer and thus was the beginning of the PBCers Organization, a non-profit corporation that vowed that all donations would go to research and not a dime to staff or salary. Linda built nothing into a very successful organization raising thousands of dollars to research. As a testimony to her success, she did not lose her life to the disease. Because of the research and new drugs produced, she managed to survive it. The organization lives on today. Linda gave life to her only son Ryan in 1978 through her second marriage. It was the Linda and Ryan show when I met her in 1988. We soon became a family and moved to the Pearland area in 1990 where we remain today. Ryan's first interest was Brenda Gonzales (Jones) and the two became good friends until Ryan left out of state for college. Ryan played football and excelled in college graduating in 2004 with a Master's Degree in Education. He was destined to be a football coach and had a lot of potential. Brenda moved into Linda's Mother's house after she passed to attend and later graduate from college locally. Tragically Ryan lost his life in an auto accident in 2005, the same year that her father

passed. She was memorable of that year for the remainder of her life. Linda passed peacefully in my arms at 2:50 AM on November 14, 2020 of pancreatic cancer.

Linda is preceded in death by her son Antony Ryan Moore, niece Stephanie Carson-Mann (daughter of Thomas Carson Jr.) and her parents Thomas and Betty Carson.

Linda is survived by her life friend and partner Tim Snakenberg, daughter Brenda Gonzales Jones, husband Brian Jones and their wonderful baby daughter Victoria who she loved dearly and brought much joy to Linda, her brothers Thomas Carson, Jr. and wife Elaine of New Braunfels, Texas and Larry Carson and wife Norma (Jan) in Montana.

“ Linda established PBCers with a few others before I met her in Christmas 1996 . This quilt was a gift from a member who loved and appreciated Linda's many contributions. Linda asked me to have it as she was closer to death and I admired it. In other faiths, when a passed loved one is remembered his or her name is followed with "May her memory be a blessing!". Linda, today your memory is a blessing to me. Thank you for accepting and loving me through good times and bad. I look forward to tea together when we meet on the other side.

“ I first met Linie more than 25 years ago. I am very used to talking medicine and science with patients but rarely does anyone follow my dialogue as closely as Linie. We both decided we would work together for the cure and over the decades I have shared my ups and downs with clinical trials, with uncooperative mice that would not breed, with big Pharma companies and a general anxiety of trying to convince other scientists to work on the tough problem of PBC. Linie always listened and kept telling that it will happen and to be persistent. Together we launched and finished the first and the largest study of PBC epidemiology in the United States. The epidemiology we accomplished became the model for similar studies in the UK, Japan and Australia. We developed mouse models of PBC, one of which we should name the Moore Mouse, that is now being used to study PBC in four continents. Linie planned meetings and enlisted and encouraged members to become active. She made sure the PBCers would go on and has to know that Carol Roberts will succeed because of what Linie has done. Outside of PBC we talked about dogs, cats, horses and family. I followed Linie during her final illness and not once did she express regret to me. Hers was truly a life worth living and I am the better for knowing her. Thank you Linie Moore!

“ My most heartfelt condolences to Tim & Linie's family, and PBCers Org., Linie's baby and legacy. I met Linie at my first PBC conference in Vegas in 2000 (after being dx in '99) and she welcomed me with open arms. Finding her group was my lifeline and I didn't feel so alone. They answered questions you did not receive from your doctors back then. We knew how we each felt and how to support one another. That was Linie's goal and she accomplished that and so much more. We formed bonds that went beyond PBC throughout all parts of the world. Linie will never be forgotten. She was always a pleasure to work with and I was privileged to have known her all this time and knew I earned her trust in forming the Illinois PBCers Support Group for the past 20 years. We had her blessing. Linie, Rest In Peace. You deserve it. You will always be remembered and missed. Love you forever.

“ Linie was one of a kind. I marvel at all she accomplished in her life. Her creation of the PBC organization was a gift to so many of us who have this disease. She was a tireless advocate for all of us. Without her hard work, we would not have made the advances we have. I am thankful that I had the opportunity to meet Linie back in the early days. I know she is happy to be reunited with Ryan and now pain free. Thank you, Linie!

“ There are no words to express my gratitude for all that Linie did for the PBC organization and those of us who joined the group because of new diagnosis of the disease. I thanked her many times, but want to publicly say thank you Linie and may God bless your work and dedication to PBCers as we carry on and your memory goes with us. “ My deepest sympathy to you all. Linie was an outstandingly wonderful woman who, despite so many tragedies in her own life, helped so many of us to learn about the disease we have. More than that, she gave us hope and practical help.  
I will remember her always.  
Now reunited with her beloved Ryan.

“ Thank you to her family for sharing Linie with her PBC family!! I was looking forward to meeting her someday...that will have to be saved for the other side now. I enjoyed her as a fiery FB friend! I truly enjoyed her no-nonsense way she had about herself! She was most definitely one of a kind...& leaves a big home in the PBC community...as well as your family, I'm sure! I've been praying for y'all during this very difficult time!

“ Linie was my first contact when I was diagnosed in 2006. She quickly became my PBC mentor as well as a dear friend. Over all the years we knew each other, she made me laugh, shared great wisdom and knowledge and always had a graceful way in dealing with people. She created our PBCers community to help us learn about PBC, Get the support of others who truly understand what it's like to live with this disease and to help the research process to find treatments and someday a cure. She was a freight train moving ahead no matter the obstacle, her Texan attitude showing proudly, and a truly giving person never asking for herself. Dedicated and yet focused on each individual. I'll miss her greatly but I draw comfort that she's reunited with her beloved son Ryan. Rest in peace dear friend. I'll see you in the heavens every night when I gaze upon the stars.

“ I found out I had PBC in 2005, stage 3 and had no idea what it was or if I was going to live stage 3 out of 4 ? I went on the internet looking for answers and came upon the PBC site. It was so calming to know all that I found out and that others were living years with this disease...even in stage 3\* I talked and thanked Linie and her son (who had passed away) for setting up this site to help others. The doctors tell you the medical part but not how you feel and talking with others really helped me soooo much. I called Linie (Ole Wise One)\*\* she would laugh and say well I don't know about that. Heaven will be an even more wonderful place with her in it. Sending love and prayers to her and her family. She will be greatly missed. God needed her on the other side to be with her son and to welcome all with PBC back home in Heaven when our time comes. Cherie

“ Please accept condolences and prayers for your family in the days ahead. She was the light to so many in the PBC community. When I was diagnosed she was very kind and helped me to learn how to live with auto immune issues. She has been a light in the dark to so many people. She has always given her time and love to the online community. She will live on in the hearts of all the people that she touched. May she rest in eternal peace.

“ Mom,  
Everyday I miss you more and more. I loved our daily chats. Me bringing Tori over to see you and the glow in your eyes. Thank you for always loving me and caring for me unconditionally. You accepted me in your family as I did too. We went on many trips together and always had a great time. I think about you everyday. I want to call you everyday. I hope you hear me talking to you daily. I love that you were in Tori's life and loved her so much, as she loved you too. The smiles you and her shared are priceless and will forever be in my heart. The way you told Tori, I Love you, melted my heart. Just so you know she took her first steps yesterday. I am sure you saw from up above. I love you mom, I was always proud of you and all your accomplishments.. You will forever be in my heart. I promise to tell Tori all about you. I love you mom!

“ My most sincere condolences, Tim.  
Eternal rest, grant unto her O Lord  
and let perpetual light shine upon her.  
May her soul and the souls of all the faithful departed,  
through the mercy of God, rest in peace.  
Amen.  
I couldn't be more sorry my friend.

“ Dear Tim and family: Linie and I met way back during the early hours one night back in 1993 on an internet group when we were both looking for info on the liver disease that we had been blessed with. Blessed is the best way to describe the disease because it was the basis for a great friendship over the past 27 years. When Linie left us she took with her a piece of my heart which I hope will keep her company up in heaven until we meet again. Please accept our condolences and know that you are in our prayers at this most difficult time. Joan Dale.
